Subject: ATTN Garry - pump installed already

Hi Garry,

Just received and set up the pump system. wow, this is some serious hardware. In a completely different league to Intex stuff - this is closer to what's on my rich aunt's \$20,000 pool :o)

It's so quiet you can't hear anything until you get round the back of the pool. Think it's off until checked. Fantastic (for neighbours too..)

Anyway fantastic service, parts, value - really appreciated.

Will recommend to anyone, and be back if i need other things...

Alex
