# Warmth and water.

Warmth and water are the basis for all life – and for all that we do here at Tylö. Since the early 1950s we have been developing, manufacturing and marketing high quality products that have helped raise bathing to the art of relaxation and enjoyment.

Today Tylö leads the way worldwide in creating inspiring environments for saunas, showers and steam bathing, both at home and in public facilities. We lead the field in terms of the breadth of our range, the quality and design of our products and the degree of technical innovation. And, to ensure that we can always be 100% certain of supplying the high quality that our customers have learned to expect of Tylö, we manufacture the components and assemble the equipment in our own purpose-built premises.

That's why a Tylö product is always the safest of choices when you want to enjoy the pleasures of warmth and water – or a combination of both – to the full.

## Quality and the environment.

When you choose a product from Tylö, high quality comes as standard. Our quality-mindedness is reflected in all aspects of our operations, from design and product development to the choice of materials, manufacturing processes, service and support.

Quality is also evident in our commitment to the environment. Clean water as a source of health and pleasure forms the basis for all our shower products, for instance. That's why we take our responsibility to the environment seriously. Our manufacturing processes are completely clean. There are no harmful emissions from any stage of the production process. The timber we use comes from responsibly managed forests in Scandinavia, the Baltic states and North America. None of our timber is taken from the world's precious rain forests. All plastic components are manufactured from environmentally certified raw materials. And, last but not least, we make optimum use of the resources we consume. Timber waste is used for heating, plastic waste is ground into granules and every scrap of metal is recycled.

Concern for the environment is more than just a priority with us. It is yet another opportunity to demonstrate our commitment to quality – not least, the quality of life. Today and tomorrow.

# Different humidity. Different temperatures. Different pleasures.

There are many ways to enjoy a bath, each one equally refreshing in its own particular way. When it comes to bathing with Tylö, the common denominators are relaxation and a sense of wellbeing for body and soul – either alone or in the company of family or friends. No matter what your personal preference, we have a wide range of quality products for you to choose from.

A brief description of the various bathing options follows. Simply choose one or more that you would like to enjoy whenever you wish to relax at home.

## Traditional sauna.

Scandinavian sauna bathing takes two traditional forms. The classic sauna is best enjoyed at temperatures of 75–90°C in a relative humidity of 20–35%. Now and then you sprinkle a ladle of water over the hot sauna stones and feel the unique, tingling sensation as wave after wave of heat penetrates deep into your skin. Your pores open, you perspire freely and dead skin cells simply disappear in the shower. Rounding off by pouring water over the stones is part of the ritual.

A slightly more extreme variation on this theme is the dry sauna in very high temperatures (95–110°C) and an almost totally dry atmosphere. This form of sauna bathing is popular among those who like to feel the searing sensation of heat on their skin, when perspiration is the only way to cool the body. For devotees of traditional sauna bathing, we recommend a classic Tylö heater or a model from the Mega series.

## Steam sauna.

A gentler form of sauna in 45–65°C, which many people experience as the ideal bathing temperature. A continuous and automatic supply of steam ensures constant humidity of 40–65%. The result is a more temperate bathing climate that tempts both young and old to linger a little longer. Just like traditional saunas, steam saunas produce the same sensation of clean, fresh skin and give you the same opportunity to unwind and relax both body and soul.

For that touch of ultimate luxury, you can perfume the air with invigorating herbs or fragrant essences. If you want to enjoy steam saunas and traditional hot and dry saunas, choose Tylö Combi – an ingenious solution that combines all the options in one single heater.

## Steam bathing.

A steam bath is not to be confused with the steam sauna. To enjoy a modern steam bath you leave the realm of the wooden sauna cabin and relax instead in a specially designed room finished in glass, plastic or tiles. The humidity level is a constant 100%. However, the temperature doesn't rise above 40–45°C, so you can enjoy the experience for as long as you like and lose yourself in clouds of soothing steam.

If you are thinking of installing a steam bath at home, a practical solution is to let the same facilities serve as a conventional shower as well. Just complement your choice of a Tylö VA or VB steam generator with a mixer tap and a sprinkler. Alternatively, Tylette Centre and Tylö Felicity combine shower functions with an integral generator for steam bathing.

## Infra saunas.

This form of bathing is based on infrared radiation and has little in common with sauna bathing as such. The equipment Tylö uses emits IR-B and IR-C radiation. This penetrates deep into the body and is widely used by beauticians the world over to enhance the efficacy of a number of skin treatments. Infrared radiation is also used as a medical therapy to alleviate the effects of rheumatism, tense muscles and similar aches and pains. It is a well-known fact that heat in all its forms stimulates the body and enhances the sensation of mental and physical wellbeing. So it's no exaggeration to say that Tylö infra cabins are an investment in good health, for body and soul alike.

As Tylö infrared panels are fully-contained separate units, they can also be installed in existing sauna rooms.

## Multi-saunas.

Installing Tylö infrared panels together with a Tylö sauna heater in one and the same bathroom is the optimum solution. In addition to their other positive effects, infrared heaters heat up the sauna quickly. This means you can start the bathing cycle almost immediately, enabling you to squeeze in a relaxing sauna when you would otherwise not have had time.

Enjoying the benefits of infrared radiation on your body at the same time as the sauna heater heats up the air in the sauna room is a solution well worth considering – and one which satisfies all the different preferences of the family for the best possible bathing experience.

# Showers.

From practical corner solutions that give you maximum flexibility when planning and positioning your shower, via a complete home spa to our new, multifunctional shower room, Tylö Felicity.

The choice may be big, but you don't need a big bathroom to make use of it. All our products have been specially designed to fit standard-sized bathrooms. The new Tylö Felicity, for example, with its built-in steam bath function, doesn't require any more room than a conventional corner shower. And the generously appointed Tylette Centre hydro-steam cabinet takes up no more floor space than a corner bathtub.

So, if you're thinking about freshening up your bathroom with a new shower, it makes sense to take a look at what Tylö has to offer. Intelligent functions combined with exquisite design. That's what makes Tylö showers not only a pleasure to use, but also a joy to behold.

## Tylö Felicity – the multi shower that knows no limits.

Tylö designers and product engineers have created what must surely be the perfect steam shower – Tylö Felicity. This bathing beauty is our top-of-the-range model, combining contemporary styling and innovative technology in a shower and steam cabinet that sets a new standard for bathing in the twenty-first century.

Using no more floor space than a conventional shower, Tylö Felicity gives you a complete home spa, packed full of attractive features. What do you say to a steam bath, cascade and cloudburst functions, massage nozzles – and, of course, a refreshing and relaxing conventional shower, as well? Tylö Felicity also incorporates a number of patent pending solutions. These include the unique floor which, despite its low step-in height, has a built-in water trap and adjustable wastepipe. And then there's the fold-down seat with an integral backrest that converts in a trice into a bench for two to sit in comfort.

Tylö Felicity has been designed as an exclusive steam shower for domestic use, but it can also be installed in public spas, hotels and wherever else owners wish to let their guests enjoy a little extra luxury.

## Smart functions that make everyday life easier and more enjoyable.

All Tylö Felicity models have a built-in steam generator, thermostatically controlled mixer tap, a hand-held sprinkler and control panel, a ceiling with an integrated shower function, a comfortable seat, two gently rounded doors in tempered safety glass and a floor tray with water trap and adjustable wastepipe. You can install Tylö Felicity in corners or as a freestanding cabinet.

The more exclusive models also have adjustable nozzles for body massage, cascade and cloudburst functions and interior lighting that bathes the entire bathroom in a relaxing glow. In these versions the seat back also converts simply into a two-seat bench.

**Ceiling shower unit** – dual function shower: a circular ceiling shower and relaxing “rain therapy”.

**Adjustable massage nozzles** for body massage that both relaxes and refreshes.

**Water cascade** helps relieve the tension in tired neck and back muscles.

**In-built steam generator** for bathing in clouds of soothing steam. The generator has automatic fill-up, emptying and flushing functions.

**Lighting in ceiling shower and cascade** casts a pleasant light in the shower.

**Hand-held shower and thermostatically controlled mixer tap** in the front service column adds the finishing touch – practical when you want

to start the shower without getting wet.

**Unique floor tray design** that combines a low step-in height with a water trap and adjustable wastepipe. The design also improves flexibility when placing the shower and adjusting the height from above.

**Twin glass doors** for maximum flexibility.

**Easy-to-operate control panel** on the front service column for setting time, temperature, steam and lighting.

**Finest quality materials** – 6 mm tempered safety glass, anodised aluminium profiles in a warm hue and a sturdy, fully steamtight construction.

**Elegant interior** with shelf compartments and a unique seat that converts simply into a bench for two.

# Tylö Felicity Basic shower room.

Extra pleasure comes as standard even with the basic version of Tylö Felicity. This steam shower has a built-in steam generator so you can bathe while cosseted in clouds of pleasant steam. Add a dash of Tylö fragrances and you can also enjoy the refreshing sensation of aromatherapy.

The ceiling shower and the hand-held shower are both operated from a thermostatically controlled mixer tap mounted on the service column – a practical solution when you want to start the shower without getting wet. Here too is the control panel for regulating bathing temperature, time and lighting.

The design is a study in restrained elegance, where the tone is set by the aluminium front column in a warm shade of anodised aluminium. The tempered glass doors have generous aluminium handles which also double as towel rails. The 6 mm thick tempered safety glass in the rear walls contributes to the sturdy, steamtight construction. And, thanks to its twin doors, Tylö Felicity gives you plenty of options when planning a functional bathroom layout.

The unique, patented floor tray construction combines a low step-in height with a water trap and adjustable wastepipe. The design also improves flexibility when placing the shower and adjusting the height from above.

Tylö Felicity Basic comes ready for simple connection to the water supply. For connection to the electricity supply you will need two 10 amp fuses. The in-built generator (max 4.5 kW) is convertible between 230 V~ and 400 V2N~. Recommended water pressure 4 bar and 50 litres/minute.

## Tylö Felicity Basic (Art. 9607 4500)

Size: 1060 x 1060 mm, exterior height 2205 mm, interior height 2010 mm.

### EQUIPMENT – TYLÖ FELICITY BASIC:

Ceiling shower • Hand shower • Steam generator • Folding seat • Floor tray • Roof  
Doors and walls in 6 mm tempered safety glass • Front column in anodised aluminium

# Tylö Felicity Midi.

With Tylö Felicity Midi you take a further step upwards on the scale of bathing bliss. In addition to all the features of the Basic version, the Midi has four high-pressure water nozzles to massage your back. There is also a refreshing “raindrop” function. The ceiling shower is a Tylö registered design that lets you choose between a ring-shaped curtain of water and a relaxing “rain therapy” function with water from the entire ceiling.

You set the steam bathing function and all the other water functions using the control panel. This has pride of place on the front service column beside the thermostatically controlled mixer tap and the hand shower.

The folding seat has a patent pending construction that you will appreciate whenever you share the shower. All you need to do is to move the backrest forwards and – hey presto! – it turns into a bench with room for two.

The elegant design owes much to the

aluminium front column with its decorative white panel – the perfect match for the shower seat. The two gently rounded doors and both rear walls are made of 6 mm tempered safety glass. The aluminium handles on the doors can also be used for hanging towels etc. As the floor tray can be adjusted from above, it is easy to place this steam shower exactly where you wish in your bathroom.

Tylö Felicity Midi comes ready for simple connection to the water supply. For con-

nection to the electricity supply you will need two 10 amp fuses. The built-in generator (max 4.5 kW) is convertible between 230 V~ and 400 V2N~. Recommended water pressure 4 bar and 50 litres/minute.

**Tylö Felicity Midi** (Art. 9607 4510)  
Size: 1060 x 1060 mm, exterior height 2205 mm, interior height 2010 mm.

## EQUIPMENT – TYLÖ FELICITY MIDI:

Ceiling shower with light and rain function • 4 massage nozzles for your back • Hand shower  
Steam generator • Folding seat with backrest/bench • Floor tray • Roof • Doors and walls in 6 mm tempered safety glass • Front column in white with chrome trim

## Tylö Felicity Premium multi shower.

When only the best is good enough, your choice of a steam shower is simple. One look at Felicity Premium and the exclusive teak panelling in the front column and seat says it all. This really is something out of the ordinary.

As far as functions are concerned, Tylö Felicity Premium takes over where the generously appointed Midi version left off. This means a built-in steam generator for relaxing steam baths, a cloudburst function, thermostatically controlled mixer tap, hand-held shower and comfortable fold-down seat that converts in the twinkling of an eye into a shower bench for two. In addition, this model has a waterfall and six adjustable massage nozzles, four on the back and two on the front, to provide soothing massage for stiff and aching muscles.

The elegantly designed seat and backrest form a patent pending construction that combines simplicity with ingenuity. Just fold down the seat for a comfortable place to sit and relax alone. Fold the backrest forwards, and you have a sturdy bench for two. (Available in teak with the Premium model and in white for the Midi.)

The lamp integrated into the ceiling casts a pleasant light even when the shower is not in use. The illuminated cascade of water above the seat cools and refreshes you even in the hottest of steam baths. All the other water functions are conveniently controlled from a panel on the inside of the front service column.

The two rounded doors have aluminium handles on either side of the front column with its decorative teak panel. 6 mm tempered safety glass in both doors and the two rear walls contributes to the safe, sturdy construction.

Tylö Felicity Premium comes ready for simple connection to the water supply.

For connection to the electricity supply you will need two 10 amp fuses. The built-in generator (max 4.5 kW) is convertible between 230 V~ and 400 V2N~. Recommended water pressure 4 bar and 50 litres/minute.

### Tylö Felicity Premium

(Art. 9607 4520)

Size: 1060 x 1060 mm, exterior height 2205 mm, interior height 2010 mm.

As its name suggests this shower room is brimming with all sorts of practical features and ingenious functions that make everyday life easier and more enjoyable.

#### EQUIPMENT – TYLÖ FELICITY PREMIUM:

Ceiling shower with light and rain function • Illuminated water cascade • 4 massage nozzles for your back and 2 in front • Hand shower • Steam generator • Folding seat with backrest/bench • Floor tray • Roof • Doors and walls in 6 mm tempered safety glass • Front column in teak with chrome trim

The ceiling shower is a Tylö registered design that lets you choose between a circular shower and a gentle “rain therapy” function from the entire ceiling. It also has built-in lighting that creates a welcoming glow inside even when the steam shower is not in use.

The Premium model really does live up to its name. The equipment includes six adjustable massage nozzles – four on the rear column, two on the front – to help soothe tired and aching muscles.

The waterfall that cascades from the rear column above the backrest (on the Premium model) not only cools and refreshes; the water also has a gentle massaging effect that can work wonders on stiff necks and backs.

# Room for more choice in the bathroom.

Tylette Centre takes up no more floor space than an ordinary corner bathtub, but offers much more in the way of comfort, convenience and flexibility. This hydro-steam cabinet turns bathing from a practical necessity into a highly pleasurable way to relax, recharge your batteries and get ready to face the challenges of a new day.

It brings more choice into your bathroom – a self-contained world of water and steam where you can sit in comfort, unwind in clouds of soothing steam and enjoy the invigorating effect of all sorts of water therapy. And, so you can share these moments of bathing bliss, there are two fully integrated shower seats.

## Tylette Centre hydro-steam cabinet

Generously equipped with steam bath, tropical cloudburst, cascade, body massage and shower functions – packaged in a stunningly attractive design.

The elegantly curved, tempered glass front has a space-saving sliding door that can be fitted to open left or right and gives a full 60 cm access width. The door may be hung on the right- or left-hand side. Two comfortable seats, one placed in the cor-

ner, are integrated into the wall sections, and all the connections for water and electricity, together with the steam generator are hidden behind the large mirrored wall. The cabinet can be angled to facilitate installation, but it is not possible to install this particular model mirror fashion. It comes complete with decorative halogen lighting inside and out.

Designed for corner installation. Connect to electricity (min. 10A), water supply and drainage. The steam generator

(4.5 kW) is convertible between 230V~ and 400 V2N~. Minimum water pressure: 2.5 bar. Run-off capacity: 50 litres per minute.

**Tylette Centre** (Art. 9607 3300)  
White walls. Size: 1420 x 1420 mm, height 1980 mm.

**Floor decking** (Art. 9005 9020)  
Optional extra: exclusive teak decking, specially made to fit the dimensions of Tylette Centre.

\*Integral steam generator

**Integral steam generator** for relaxing bathing in clouds of soothing steam. The generator fills, empties and flushes automatically.

**Tropical cloudburst** – a sensational experience, at least as refreshing as the real thing.

**Body massage** – effectively placed nozzles direct jets of invigorating water.

**Waterfall function** releases a cascade of water over your head and shoulders to relax tired and aching muscles.

**Complete shower kit** with chrome-

plated riser and sprinkler head with shower function that adjusts from a gentle spray to a pulsating jet of water.

**Thermostatically controlled mixer tap** in an elegant, chrome-plated construction – high quality and easy to operate.

**Space-saving sliding door** made from the finest materials. Install to open left or right.

**Recessed halogen lighting** provides just the right level of illumination inside the bathing cabinet and out.

**Easy-to-operate control** panel shows

time, temperature, steam-bath and lighting settings.

**Finest material quality** – vacuum-formed, special-grade plastic, tempered safety glass and aluminium profiles for a safe, sturdy, steam- and watertight construction.

**Comfort and convenience** with integral seat and practical shelf compartments in the walls.

**Fragrance holder** for natural essences spreads a pleasant, refreshing scent in the steam bath.

## Corner showers for every bathroom.

Tylö offers a variety of corner showers for domestic use and public facilities alike. They may look very different, but they all have one thing in common – the high quality that has become a byword for Tylö.

One of the big advantages of our corner showers is their simplicity. All you need is a water supply and a wastepipe or floor drain connected to the wastewater system. Another advantage is flexibility. You can fold away one of our corner showers when it's not in use, or equip another to serve as a steam room. And the size and shape is up to you. No one offers the same combination of quality, simplicity and flexibility as Tylö.

## Parant corner shower

(Art. 8900 9100)

Exclusive corner shower with a curved sliding door and front in clear tempered safety glass with natural anodised aluminium profiles. The door runs on soft-suspension, roller-bearing wheels for smooth, silent operation and has magnetic strips for reliable, watertight closing. Optional right-hand/left-hand access: opening 600 cm.

The ingenious pivoting wall profiles give Parant a huge advantage over other corner showers – unique flexibility for a perfect fit in every corner.

Size: Adjustable, see sketches below.  
Height 1850 mm.

## Parant Center

(Art. 8900 9102)

As above but with centre access and slightly higher walls (1900 mm). You can combine Parant Center with shower walls to give you even greater flexibility to customise your own shower design. See the suggestions below.

## Shower walls

Fixed side wall for installations with Parant Center. Natural anodised aluminium profiles and plain, clear safety glass.

**Wall 50** (Art. 8900 0337)

**Wall 70** (Art. 8900 0340)

Parant. Examples of sizes for fully flexible corner installations.

Parant: Sizes for regular corner installation.

Parant Center + 2 x Wall 70  
+ 2 x SP Linking strip.

2 x Parant Center +  
1 x SP Linking strip.

## Diamant (Art. 8900 9120)

Attractively designed corner shower with the door set at an angle. Door and walls in sturdy natural anodised aluminium profiles and clear safety glass. The door glides to and fro with just a whisper on soft-suspension, roller-bearing wheels and has a secure brush-strip seal. It can be installed to open right or left (opening width: 450 mm).

Size: 960 x 960 mm, height 1900 mm.

### OPTIONAL ACCESSORIES

Diamant can also be fitted with a steam bath. Add Diamant roof dome (see below) and suitable filler profiles. For details of steam generators, see page 114.

## Diamant roof dome

(Art. 8911 0540)

One-piece roof dome in special-grade plastic with assembly profiles of natural anodised aluminium. Specially designed to fit Diamant corner showers.

### Perfect combination

Just add a roof dome, a VB steam generator and a CC control panel and you can transform Diamant into a sensational steam bath.

## Swing (Art. 8900 9125)

Swing is ideal where space is at a premium. Two elegantly curved door sections in 6 mm tempered safety glass. Adjustable aluminium side posts wide enough to allow room for the passage of surface-mounted pipes. The door sections open both inwards and outwards, and stay put automatically at the chosen position. By folding the doors in when the shower is not in use, you free up the maximum amount of floor space.

**IMPORTANT!** As this shower has no floor-seal it is recommended primarily for shower rooms where the floor slopes towards a waste outlet. As there is no threshold the shower is practical for disabled people.

Size: 900 x 900 mm, height 1900 mm.

## Filler profiles

You can use these natural anodised aluminium assembly profiles to make it easier to adapt your shower to the size of your bathroom.

### UPH (Art. 9022 8105)

For use where water pipes are surface mounted or for increasing the installation size by 55 mm.

### SP Linking strip

(Art. 9022 8115)

Profile for linking shower wall to Parant.

### KP Combi-profile

(Art. 9022 8125)

T-shaped linking strip.

# About Tylö.

The Tylö name is a registered trademark in 74 countries all over the world. The company was founded in 1949 by Sven-Olof Janson.

Tylö AB is a well-established manufacturer with considerable market shares and all the resources necessary to ensure stable growth. This provides the foundation that makes Tylö AB a secure partner for the future.

Our highly successful concept is built on offering products of high quality which promote relaxation, enjoyment and the pleasure of bathing. All the products that bear our name have been developed and manufactured by Tylö. Today our products are exported to more than 80 countries on every continent, and export sales currently account for more than 75% of our total production.

The Tylö factory is located in a modern industrial area close to the centre of Halmstad, Sweden. The factory has been extended more than a dozen times since 1959, most recently to give a factory floor area of 30,000 sq.m. The company has enjoyed an AAA credit rating (Dun & Bradstreet) for many years and all investments in land, buildings and machinery have been financed with internal resources.
